

**REMARKS**

Claims 1 and 3-14 are pending. Claims 1 and 8 have been amended. No new matter is presented.

Claims 1, 3-11 and 13-14 have been rejected under 35 USC 102(e) as anticipated by Slotznick. The rejection is respectfully traversed.

Claims 1 and 8 have been amended to clarify the invention. According to claims 1 and 8, the first and second elements are spaciouly separated but simultaneously displayed. Thus, the first and second elements are separated so that they can be displayed on the same screen page, but not at the same time. Slotznick fails to teach or suggest the claimed features. Slotznick displays both the primary and secondary information at the same time (see Abstract).

The remaining claims are allowable at least due to their respective dependencies. Applicants request that this rejection be withdrawn.

Claim 12 has been rejected under 35 USC 103(a) as unpatentable over Slotznick and Barkan. The rejection is respectfully traversed for the same reasons presented in the arguments above, and since Barkan also fails to disclose separating information prior to display so that the first and second elements are displayed at different times (i.e., not simultaneously).

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection

with the filing of this document to Deposit Account No. 03-1952 referencing docket no.  
449122019400.

Dated: June 29, 2007

Respectfully submitted,

By
